Directions:

List the required and elective classes you would like in your schedule. Full year and Semester.

Write the class periods each class is offered in the next column.

Circle class periods that will work; cross out periods that will not. For example, Manufacturing Technology and Theater Arts are only available in Sem 1. There is no room in this schedule for other classes in Sem 1, so the student crossed out the Sem1 Options for CCP and Nutrition and Wellness.

CHECK: Is there a class for every period 1 – 8, with lunch as one of them? Is there a conflict? If there is a conflict or your classes do not fit, notify your counselor immediately.
